Chuck Talton

U. S. Environmental Protection Agency
Renaissance Tower
1201 Elm Street
Dallas, TX 75270

Dear Mr Talton,

This letter is to acknowledge you are hereby authorized to use the e-mailed documentation this letter accompanies for official purpose of the EPA, including cost recovery, litigation, and public release. The documentation includes tasking documents for SBA Shipyard work performed, 12/1/18- 5/31/19, internal work tracking correspondence, relevant pages from monthly progress reports, and closure memos for ongoing TDFs, under which direct ancillary support was provided including analytical logistical, follow-up support, archival, and direct support for a previous SBA Shipyard cost recovery request.

Work producing these documents was performed under Environmental Protection Agency (EPA) contract EP-W-13-026, task orders 002 and 003. Alion's ESAT contracts were operated within the NSBU group of Alion, which was sold to Serco in August 2019. The contracts were transferred to Serco under the terms of the sale and are in the novation process. Reports were developed using Government funding and Serco grants EPA unlimited use to these documents as outlined previously.

Should you have any questions, please do not hesitate to contact me.

Sincerely,

DOMINIC JARECKI
